

DATASET LICENSE AGREEMENT

This license is a legal agreement between you and Iowa State University ("ISU") and governs your use of the ISU dataset as available under this license ("DATASET").

Description of the DATASET:

The synthetic driver dataset (SYNDD1) is based on 10 hours of videos collected from 10 diverse drivers using three cameras located inside a stationary vehicle. For each camera view the data contains two types of data: without any appearance block, and with appearance block such as hat or sunglass. Hence, the dataset set consists of 60 videos in total, 30 of which has manually annotated files stating the start and end time for 18 different distracted driver behaviors. Each video is in 1920 × 1080 resolution and around 10 minutes long.
